LinkedIn: https://www.linkedin.com/in/rakshita-d-8b7539308

Summary :

Aspiring software developer with a strong foundation in programming and web development. Skilled in problem-solving, analytical thinking, and learning new technologies. Seeking an entry-level opportunity in a growth-oriented organization to apply technical knowledge, enhance skills, and contribute effectively to organizational success.

Education :

Stream	Institution	Year of Passing	CGPA
Bachelor of Engineering in Information Science Engineering	Sri Krishna Institute of Technology	2027	8.35 CGPA.

Technical Skills :

- **Programming Languages:** C, Java, Python
- **Web Technologies:** HTML, CSS, JavaScript, React
- **Databases:** MySQL, MongoDB
- **Data Analytics & Visualization:** Microsoft Excel, Power BI
- **Tools & Platforms:** Git, GitHub, Visual Studio Code
- **Operating Systems:** Windows, Linux (Basics)

Projects :

Smart Blind Stick using Ultrasonic Sensors (IoT Based) | 2023

- Developed an IoT-based assistive device to help visually impaired individuals detect obstacles
- Integrated ultrasonic sensors for distance measurement and real-time alerts
- Improved safety and navigation using embedded system concepts

To-Do List Web Application | 2024

- Designed and developed a responsive to-do list application using HTML, CSS, and JavaScript
- Implemented features like task addition, deletion, and status tracking
- Focused on user-friendly interface and efficient task management

IndiaAssist – Safety and Travel Companion App (Full Stack) | 2025

- Developed a full-stack web application to assist users with travel planning and safety features
- Designed intuitive user interface and integrated backend functionalities
- Focused on enhancing user experience with real-time assistance features

Smart Complaint Management System – SKIT (FSD Mini Project) | 2025

- Built a web-based complaint management system for handling and tracking user issues
- Implemented features for complaint submission, status tracking, and resolution management
- Improved efficiency in managing and responding to complaints

Universal Bidirectional Sign Language Translator (Final Year Project) | 2026 *(Ongoing)*

- Working on a system to translate sign language into text/speech and vice versa
- Conducting literature survey and analyzing existing models and technologies
- Aiming to enhance communication accessibility using modern technologies

Certifications :

IBM SkillsBuild : Artificial Intelligence & Data Analytics, Cloud Computing

Infosys Springboard : Python Programming & AI Fundamentals, Frontend Web Development

Oracle Academy : Database Management Systems (DBMS)

Celonis Academy : Process Mining Fundamentals

MongoDB University : MongoDB & NoSQL Databases

Saylor Academy : Machine Learning

Hobbies :

- Problem-solving and logical thinking
- Learning new technologies
- Reading technology-related articles
